## BLISS' WORK

may prove the greatest social innovation of modern time. It has been praised by eminent scholars. Some of its fantastic aspects are:

1. A simple symbol writing, typing, and printing for communication, commerce, industry and science, that can be read in all languages — without translation.
2. A simple symbolic logic which even children can learn to use in their daily problems.
3. A simple semantics for recognising the dangerous words of demagogues and dictators in the homes and nations.
4. A universal natural ethics encompassing all religions.
5. The biochemical discovery that cells act ethically in all creatures.
6. The archeological discovery that old stone age man was not a killer of his fellow-man. Cannibalism and war began with new stone age man by the introduction of dangerous words.

Dear Librarian,

YOU may have wished sometimes that a book be invented: A BOOK TO END ALL BOOKS, or at least those which contain trivial, vague and false "knowledge" and those books which are illegible without a laborious translation.

Threehundred years ago, the great Leibnitz had the same wish, and he prophesied that one day one man will make this "Invention". Now eminent scholars like Bertrand Russell, Julian Huxley, Buckminster Fuller, Oliver L. Reiser, Lancelot Hogben and others have agreed that I have done just this. Read the fantastic aspects of my work as outlined in the left margin.

Now read the enclosed "cover story" of my new book THE INVENTION AND DISCOVERY THAT WILL CHANGE OUR LIVES. Read the sample page titled "The Ball, the Egg and You" and realize that any child can make this "Discovery" seeing that an ethical power of merciful help and co-operation works in every living atom of its own body, and the bodies of all creatures.

Then realize the catastrophe of communication by language by which false and disastrous theories of merciless competition have turned men of our age, even our teenagers and our children into violent destructive creatures.

Then send off the enclosed stamped postcard, and get my book and the postage stamps to return it - though I hope you will give it to those of your readers who need it most - your teenagers.

In this hope I greet you from far-away Australia.

Sincerely yours,

*C.K. Bliss*
